

# It's MMy Life: Your specialty, my world

## Live symposium, including Q&A sessions on Thursday 12th May 2022, 17:00–18:30 CEST

Online and in-person at The Westin, Paris, France, 12–15 May 2022

Join our expert faculty to discuss the **bigger picture** with current real-world evidence for MM treatment decision-making, and discuss the **new normal** following the COVID-19 pandemic. The faculty will delve into upcoming therapies that could **pave the way** for the future of MM treatment.

Each topic will be covered in a short presentation followed by a **panel discussion and Q&A** session with the following experts in MM:

**Chair:**

Professor Roman Hájek,  
Hospital Ostrava, Brno,  
Czech Republic

**Speaker:**

Professor Xavier Leleu,  
CHU de Poitiers,  
Poitiers, France

**Speaker:**

Professor Cristina João,  
Chamalimaud Foundation,  
Lisbon, Portugal

### Agenda

17:00–17:10	Welcome and introductions	Professor Roman Hájek
17:10–17:35	The bigger picture: RWE informing current practice	Professor Xavier Leleu
17:35–18:00	The new normal post-COVID-19 pandemic?	Professor Roman Hájek
18:00–18:25	Paving the way for the future	Professor Cristina João
18:25–18:30	Summary and close	Professor Roman Hájek

### Investigational medicines will be discussed at this meeting.
